To All Pet Owners Entering AIDS Thunder Bay,

AIDS Thunder Bay is a non-judgmental, welcoming organization, even to our four legged friends. For the health and safety of the both the humans working and visiting here , as well as the animals themselves, AIDS Thunder Bay would appreciate that all animals entering the premises be controlled by their owners and on a leash at all times. Pets are welcome in the front reception area and, **if invited by staff**, may accompany visitors throughout the building.

Please bring your own leash, as AIDS Thunder Bay may not be able to provide one. This is a health and safety issue and is not meant to discourage clients from bringing four legged family members to the office.

If you have any questions or concerns please feel free to contact Bob Manson.
